- As a main person in charge of The Voice 2025 event at UCSD, planned, organized, and carried out the event with 24 members on theme selection, personnel allocation, business solicitation, publicity, winning mechanism, equipment problems, event setup and so on. We selected the best 10 singers into the final round. There were about 120 participants to vote for the final best singer.
- Organized and participated a 9-day airport pick-up service event to pick up incoming undergraduate and graduate UCSD Chinese students from LAX airport. We successfully picked up around 600 students and parents, helped them create bank accounts and apply for phone numbers, and finally sent them home safely.
- Planned and organized a night market event and an opening ceremony event to publicize Chinese Cultures and welcome incoming students at UCSD. Both are performed successfully. The opening ceremony had over 750 participants and the night market had over 300 people.
- Provided mentorship to 7 mentees, guided them on how to organize and prepare for a small cotton candy food stall at a night market at UCSD. After controlling the cost of goods and the timing, the stall costed around \$150 but earned \$339. The revenue was up to 126%.
